PREMIUM DUAL SLIDING DOOR

Features

- Fully Customizable sizes
- Nitto Kohki Sliding Door Closer
  - Duel Speed control for close and soft-close
- Premium Handles
- Hold open
- No Threshold
- Rigid Aluminum Design

Door Summary

Engineered for mission-critical environments, the ColoAire Premium Dual Sliding Containment Door delivers smooth, space-saving access with exceptional durability and maximum adjustability. Featuring twin opposing sliding panels, this system offers unobstructed entry and maximized airflow control in hot or cold aisle containment systems.

Crafted from high-grade aluminum framing and impact-resistant polycarbonate panels, it's designed for longevity and consistent performance. Nitto Kohki sliding door components reduce opening resistance and allow adjustments to both door close and the soft-close; insuring the ideal door close.

PREMIUM DUAL SLIDING DOOR
